A Real Bargain in Grapes

FOUR FIRST-CLASS VINES OF FIRST-CLASS
VARIETIES AT A TRIFLING COST.

A Peerless Collection.

No fruit has attained a higher degree of perfection than the Grape, and nothing can be had at so trifling an expense, which is at the same time so healthful and refreshing. It is one of the best specifics for indigestion, and highly prized for medicinal purposes.

It may be planted in many places otherwise waste. It may be trained along the side of a building, or upon a fence that is intended to screen unsightly objects. It is an ornamental vine along the side of a back veranda, or trained to cover an arbor in the corner of the garden, or retired part of the lawn. Or it may be trained upon a trellis in rows. Grapes should be planted about ten feet apart, in rows about the same distance.

✓ **MOORE'S DIAMOND, the King of White Grapes.**

Originated in Brighton, N. Y., and is a cross between the Concord and Iowa. It bears regularly large crops of fine fruit. The vine is a remarkably strong grower and very hardy; the leaves are dark glossy green; bunches very large and uniform and very compact; berries large, and skin thin but tough, which insures their shipping qualities; quality good, very little pulp, melting and sweet to the center; ripens with Delaware.

WORDEN. (Black.)

Is very large and showy, and is remarkable for size, beauty, productiveness and hardiness. It has received several first premiums, and invariably gains high commendations wherever exhibited. Fruit very large and handsome; black, with a heavy blue bloom. Quality fully equal to Concord; vine exceedingly hardy. It has stood 20° below zero, and has been exempt from mildew and disease.

THE CONCORD. (Black.)

Known everywhere. Bunches large; berries large, round, black, moderately juicy and sweet; universally healthy, vigorous and productive; ripens medium early. Popular for general planting; everybody likes it.

✓ **THE SALEM. (Red.)**

A superior family and market Grape. It has remarkable vigor and hardiness of vine; berry very large, rich wine shade or chestnut color, pulp sugary with rich peculiar flavor. It ripens a week or ten days before the Delaware and bears most abundantly; having thick, large foliage it is enabled to withstand the heat of the summer, and being a vigorous grower it exhibits extreme hardiness, and is enabled to endure the winter in extreme localities.
